You should see the event get started around 8:45AM. If you don't see the live stream right away, stay with us as we could be having some technical difficulties.

To watch the live stream of the event all you need is an Internet connection with a minimum of speed of 2mbps and have a fully updated internet browser. We recommend that you use the Chrome Browser.

- To test your internet speed go to this page – <http://www.speedtest.net/>
- Another Tip – some of our Colorado Senior Lobby members have noticed that the **Chrome browser** does a better job with streaming videos. If you are using a browser other than Chrome, such as Internet Explorer or Mozilla and our streaming video is crashing or freezing up, then consider downloading the Chrome browser. Here is a link to Chrome, which is a product of Google:
