Proceeds from the webinar series will fund Colorado Senior Lobby's mission of educating and advocating for older Coloradans.

Colorado Senior Lobby (CSL) is a non-partisan, non-affiliated, all-volunteer non-profit that has been serving the entire spectrum - every stripe and category of Colorado seniors since 1980; helping those older adults learn more about how public policy and resource allocation to aging-related issues intersect - and most importantly, how to become active participants in public processes.
